re: Microsoft settlement

Over the last several years the on going suit against the Microsoft Corporation has cost us the taxpayers many, many dollars. I can see no further reason to delay this ongoing issue any longer. The agreed settlement sometime ago seems too have been accepted by both parties and now its ugly head has reared up again and I would like to see this end and get on with making our economy run and become strong again.

Free enterprise has built this nation and it will continue to grow without the courts telling them how to run their business.

Respectfully.
